

## FAYAL TOWNSHIP

### February 2026 ROAD AND BRIDGE REPORT

Check Roads at the beginning of each week along with weekly meeting. Picked up supplies, and parts from town. Post monthly township meeting minutes. Cleaned shop. Attended safety meeting. Haul material to the community piles. Help with sump pump inspections. Start scraping roads on the truck route. PUC locates. Water samples. Replace cutting edges on the grader. Plow snow. Work on scraping all the roads in the township. Grease the loader and grader. Sand roads. Clean the shop. Hauled recycling. Wash the loader. Plowed all the lift stations and remove snow from the tank doors. Removed some fallen trees from the snow storm. Clean intersections and pushed back snow banks. Adjusted the plow on the dump truck to hopefully eliminate the tripping issue. Work on the scada system, trying to add in the app for employees. Found a new place to get cutting edges, big savings in the cost.
